

## *It's a Dog Gone Tale: Destiny's Stand*

*A quiet summer community erupts in turmoil as progress, fueled by power and greed, threatens not only their way of life but the future of hundreds of abandoned pets and the shelter that protects them. Lead by the most unlikely of heroes, the teenaged residents and their parents much choose sides or watch their beloved community and their homes disappear forever. G-Star students will be involved in all aspects of production, including acting, set design and more.*
